Reference Services
Face-to-face and online reference services are available to assist faculty with research.

Customized Online Research Guides
Research guides are available online for all subject areas and can be customized for a specific class or assignment.

Instruction Services
Information literacy and research instruction is available in both asynchronous and synchronous online modules. These sessions introduce students to the resources available at Lone Star College-Montgomery and develop college-level research skills.

Collection Development
Dual Credit faculty are invited to make recommendations, including format and content, for the development of the library's collection.

Print & eResources
Faculty and students have access to the same LSC resources as on-campus students, including online databases and print resources. All that is needed to access these resources is a LSC library barcode, which may be requested via the library's website. Faculty and students may request that items in the collection be delivered to the nearest Lone Star Library, Harris County Public Library, or Montgomery County Memorial Library for pick-up. Items can be requested directly through the online catalog.

Request a Library Barcode Number:  http://www.lonestar.edu/library/card.htm#card

Getting Research Help
Librarians are here to help! We're available to faculty and students via phone, email, or instant chat.

Ask A Librarian:  Call: 936.273.7390 | Email: mclr@lonestar.edu | Chat: lonestar.edu/library
